

Senior Gas Pipe Installer – Generator Division

Northeast Generators LLC | Scotch Plains, NJ

Experienced Fuel System Professionals Wanted

Northeast Generators is seeking an experienced Gas Pipe Installer to join our generator installation team. We install residential, commercial, and industrial standby generator systems throughout New Jersey and are looking for someone who takes pride in building safe, code-compliant fuel systems that will operate reliably for decades.

This is not a production plumbing position.

We're looking for someone who understands gas piping, values quality workmanship, and wants to be part of one of New Jersey's premier standby power companies.

About the Position

As a Senior Gas Pipe Installer, you'll be responsible for installing complete natural gas and propane fuel systems that serve residential and commercial standby generators.

Every installation is different, providing a challenging and rewarding work environment where craftsmanship and attention to detail matter.

Responsibilities

- Install natural gas and propane piping for standby generators.
 - Install above-ground and underground gas piping.
 - Thread and install black iron pipe.
 - Install CSST where permitted and appropriate.
 - Install regulators, valves, sediment traps, unions, and flexible appliance connectors.
 - Perform pressure testing and leak testing.
 - Read site plans and installation drawings.
 - Coordinate with electricians and generator installation crews.
 - Ensure all work complies with applicable fuel gas codes and manufacturer requirements.
 - Maintain clean, organized, and professional job sites.
 - Communicate professionally with homeowners, contractors, and inspectors.
-

Qualifications

- Minimum **5 years of gas piping installation experience**
 - Experience installing natural gas and/or propane systems
 - Ability to thread black iron pipe
 - Experience working with pipe sizes from ¾" through 2" and larger
 - Knowledge of fuel gas codes and safe installation practices
 - Ability to read plans and piping layouts
 - Valid driver's license with a clean driving record
 - Ability to lift heavy materials and work outdoors in varying weather conditions
-

Preferred Experience

We're especially interested in candidates with experience installing:

- Standby generator fuel systems
- Residential and commercial generator installations
- Underground gas piping
- Commercial gas services
- Gas meter tie-ins
- Regulators and large-capacity fuel systems
- Pressure testing and inspections
- Excavation and trenching

Experience with electrical or generator installation is a significant plus.

What We Expect

We hire professionals who:

- Take pride in their craftsmanship.
- Show up on time.
- Treat customers with respect.
- Work safely.
- Keep clean, organized job sites.
- Solve problems instead of creating them.
- Work well with a team.

If you're looking for a company that cuts corners, this isn't the place.

If you enjoy building high-quality installations that you'll be proud to drive past years later, you'll fit right in.

What We Offer

- Top-of-market compensation based on experience
 - Overtime opportunities
 - Company-paid uniforms
 - Professional-grade tools and equipment
 - Health insurance
 - Retirement plan with company match
 - Paid holidays and vacation
 - Stable, year-round work
 - Opportunities for advancement
 - Training on generator-specific fuel system design and installation
-

Why Northeast Generators?

Our reputation has been built by doing things the right way—with quality materials, attention to detail, and technicians who care about the finished product.

Our install teams work on some of the most technically demanding standby power projects in New Jersey, ranging from residential whole-home systems to large commercial and industrial generators.

We're looking for professionals who want to build a long-term career with a company that values skill, integrity, and craftsmanship.

If you're ready to join a team that takes pride in building New Jersey's best generator installations, we'd love to hear from you. Apply today. Confidential inquiries from currently employed professionals are welcome.
